

# BETWEEN CLOUDS

ANDI LICHT

To begin, take turns reading the overview and each of the game's elements aloud.

## OVERVIEW

Between Clouds is a game about a family of mutants and their beloved flying beast working to preserve fragile ecosystems among the sky. They will travel from one location to the next, rescuing precious wildlife, sabotaging industrialists, and finding acceptance in each other's company. The world is **post-collapse**, set in a time when humans have fled into the skies and away from a poisonous surface below. Now, old world technology lies in disrepair, requiring constant maintenance to be used. This is no grim apocalypse, however. Green, natural life grows wherever it can find purchase. The world is also **biopunk**, and through biology, all things are possible. Mutated animals, titanic trees, and flying sea life are all commonplace. In this world, our players will encounter sweeping vistas, campfire dinners, swashbuckling sword fights, storms, villains, jailbreaks, schemes, and supernatural abilities.

### THE STORYTELLER

One player must facilitate the game by assuming the role of Storyteller, typically the person who brought this game to the group. They will guide the player's journey across Empyrea, presenting them with new scenes and challenges along the way. They take on the role of the Kirin itself.

**PAGE 130**

### KIRIN

Between Clouds is centered around immense, flying mammals known as Kirin. They are creatures of mythical proportions and masters of the natural world, feared by humans and hunted for their resources. The Storyteller must create their own Kirin, consulting the group as they do.

**PAGE 26**

### SYMBIOTES

Players assume the role of Symbiotes, colorful outcasts who have forged symbiotic links with a Kirin. They are shunned by society, often labeled as miscreants and anarchists. Through their Kirin, the players gain access to biological abilities that will give them an edge against poachers and industrialists. **PAGE 50**

### THE FAMILY

The Symbiotes and their Kirin together create a found family, simply referred to as 'the family' throughout. They share a biological connection, as well as a spiritual bond. In a world that fears Symbiotes and Kirin, they are each other's home.

# HOW TO PLAY

To play *Between Clouds*, you will assume the role of a fictional character, known as Symbiote, and embody them through decision making, action and roleplay. **You may do the following at any point:**

- ◆ Ask what is happening in the scene
- ◆ State what your character is doing
- ◆ Contribute a detail to the scene, like a scent, sound, character or event

Whenever you attempt to do something particularly challenging, you must roll dice to determine the action's outcome. Follow the steps below:

- 1) State an objective.** What are you trying to accomplish?
- 2) Choose a skill.** How does the chosen skill apply to the situation?
- 3) Set the stakes.** The Storyteller determines how many successes (1, 2 or 3) are required and what the result of a failed roll will be.
- 4) Count penalties and bonuses.** Equipment, mutations, skill levels and trinkets all add dice to your roll. Conditions subtract dice.
- 5) Roll the dice.** Each 6 counts as a success. If rolling with advantage, each 5 and 6 counts as a success instead.

## INTERPRETING A ROLL

If you roll **no successes**, things are looking bleak. You have two options.

- ◆ **Push your roll** by spending a Unity Point and calling for the Kirin's aid. The Kirin may only push a roll if one or more of its traits are relevant to the action at hand.
- ◆ **Accept the failure** and mark a Condition of your choosing. How do things go wrong for you? What happens next?

If you roll **one success**, you achieve your goal. How do you do it? What happens next?

If you rolled **two or more success**, you achieve your goal and more. Choose flourishes from skill's corresponding list in the rulebook, one for each success beyond the first, or make up your own.

## THE SKILLS

### MIGHT

- ◆ **DUEL** - Fight in close quarters
- ◆ **FORCE** - Push or pull objects with brute strength, restrain foes
- ◆ **ENDURE** - Withstand harsh conditions and exercise willpower

### STYLE

- ◆ **COMMAND** - Make demands and coordinate groups
- ◆ **CHARM** - Bring joy, make friends, and win people's favor
- ◆ **HAGGLE** - Barter for goods and negotiate deals

## TRAVEL

Travel begins when the family is together in the saddle, flying towards a new destination, typically at the beginning of a session.

- 1)** Each player chooses a travel task to perform throughout the day.
- 2)** As a group, choose a new region to travel to that is connected to the current one.
- 3)** Roll for a random event from the new region's Biome. If anyone successfully rolled to Chart Course, roll two events instead and have the players choose between them.
- 4)** Overcome the event if necessary. Consider the event's leaves and draw a Progress Plant if needed.
- 5)** Arrive at the new location.

### POISE

- ◆ **MOVE** - Leap, dash and climb
- ◆ **SNEAK** - Move about unnoticed and perform sleights of hand
- ◆ **AIM** - Strike targets at a range, throw objects and catch fish

### FOCUS

- ◆ **INSPECT** - Search for clues, analyze objects, and discern motives
- ◆ **NAVIGATE** - Traverse the skies, make maps and follow trails
- ◆ **MODIFY** - Repair, alter and destroy objects and mechanical devices

## TRAVEL TASKS

As the family sets off towards a new destination, each Symbiote should select a task to perform during their journey. Unless specified, the same task may be taken by multiple players.

- ◆ **Cook lunch.** Gain a Unity Point.
- ◆ **Bond with the Kirin.** Gain a Unity Point. How do you bond?
- ◆ **Practice.** Train a specific skill for the journey ahead. This skill may be rerolled for free one time before the end of the session.
- ◆ **Work the radio.** Learn a piece of news from your destination. May not be taken by more than one family member.
- ◆ **Scavenge.** Roll **INSPECT**, and gain an Equipment Point for each success.
- ◆ **Go fish.** Gain one Fish for each success rolled to **AIM**. Fish may be fed to the Kirin to restore its marked Conditions.
- ◆ **Construct.** Build a new upgrade for the saddle by rolling **MODIFY**. Draw a Progress Plant with three leaves for the upgrade.
- ◆ **Repair.** Recover a lost saddle upgrade or remove a flaw by making a successful **MODIFY** roll.
- ◆ **Chart Course.** Survey the routes that lie ahead. Roll **NAVIGATE**. If successful, have the Storyteller generate two events for the region instead of one. Choose between the two.

# THE FAMILY

The Symbiotes and their Kirin together create a found family. This family shares its resources and gains its strength from mutual support.

## Visit this page:

- ◆ To gain or spend points of any kind
- ◆ When looking for solutions or aid
- ◆ To track the family's progress

## GOALS

What are the family's current goals? These could relate to any of the Symbiote's dreams or problems within the current location. Rewrite these goals as is appropriate for the family.

### Primary Goal

---

---

### Place Unity Points here when you gain them.

Gain a Unity Point when:

- ◆ The Kirin bonds with their Symbiotes
- ◆ The Symbiotes rely on each other for support

Spend a Unity Point to:

- ◆ Activate a power
- ◆ Call for the Kirin's aid and push your roll (or provide aid as the Kirin)
- ◆ Remove a family member's marked Condition by consoling them

## UNITY POINTS

The family's greatest asset is the strength of their bond, tracked through Unity Points. The Kirin and Symbiotes can both gain and spend Unity Points.

## EQUIPMENT POINTS

The family carries all kinds of gear in their pockets and on their saddle, accounted for by Equipment Points. Only Symbiotes may spend Equipment Points.

## WILD POINTS

Kirin are unexpected creatures that can produce wondrous magic, accounted for by Wild Points. Only Kirin may gain and spend Wild Points.

### Place an Equipment Point here for each player present.

Spend an Equipment Point to produce any common item that would be found in your saddle or pockets and gain an extra die from it.

### Place Wild Points here when you gain them.

Gain Wild Points when you act out the Kirin's personality. Mark leaves on a Pressure Plant.

Spend Wild Point to perform wonders as the Kirin. Mark leaves on a Progress Plant.

# THE KIRIN

### Play to find out:

*Can you keep your family safe?*

*Is there room for you in this world?*

*Can human greed coexist with nature?*

## WILD POINTS

**Gain a Wild Point** and mark a Pressure Plant when you choose to:

## ATTRIBUTES

Distribute the values 2, 3 and 4 between your Might, Poise and Style.

## SKILLS

Mark one level in 3 different skills. Add an extra die for each level when you use the skill.

### Unique Skill

**INVENT (FOCUS)** - Create new gadgets, devices and saddle upgrades from salvaged parts. Specify what you would like the invention to do, and then specify what you will build it out of. Roll **FOCUS**. On a successful roll, you may use the invention like any other piece of equipment, granting you a +1 bonus to any relevant rolls made. Each additional success increases the quality of the item, allowing it to grant a +2 or +3 bonus instead.

### CHOOSE A MUTATION

Circle your family's core mutation as well as one of your own choosing. If any of your mutations benefit you during a roll, gain an extra die.

*antennae, aquatic body, beak, bestial ears, bestial eyes, bestial legs, bioluminescence, extra limbs, floral body, horns, quills, scales or fur, snout or fangs, static charge, tail, talons, tendrils, wings*

alpine climbing goggles, two missing fingers, fur-lined jacket, windswept mustache or beard, billowing scarf

## CHOOSE A PAST

- ◆ I was abandoned in a remote place
- ◆ I stowed away at a young age
- ◆ I used to track down treasures for greedy elites
- ◆ I used to explore The Below until that fateful day

## CHOOSE A DREAM

- ◆ I will find my way back home
- ◆ I will uncover the lost city of legend
- ◆ I will find the green pastures of a fabled paradise
- ◆ I will locate the final resting place of Kiro, the original Kirin

## ATTRIBUTES

Distribute the values 2, 3 and 4 between your Might, Poise and Style.

## SKILLS

Mark one level in 3 different skills. Add an extra die for each level when you use the skill.

### Unique Skill

**GUIDE (FOCUS)** - Guide your family to local hubs and havens that you have previously visited during your travels. Roll **FOCUS**, and for each success rolled, pick a spot from the list below.

### I know a spot where:

- ◆ We can hide out for a bit
- ◆ The Kirin can safely hide
- ◆ We can get some good information
- ◆ We'll have a perfect vantage point
- ◆ They welcome Symbiotes and Kirin

## CHOOSE A MUTATION

Circle your family's core mutation as well as one of your own choosing. If any of your mutations benefit you during a roll, gain an extra die.

*antennae, aquatic body, beak, bestial ears, bestial eyes, bestial legs, bioluminescence, extra limbs, floral body, horns, quills, scales or fur, snout or fangs, static charge, tail, talons, tendrils, wings*

# THE SADDLE

The saddle is wearable structure that is affixed to the Kirin's back. As a family, it is your true home among the skies.

## Visit this page:

- ◆ After character creation
- ◆ At the beginning of each session
- ◆ When encountering weather
- ◆ When you need inspiration for Equipment Point items

## CIRCLE 3 UPGRADES

armory, balcony, bandanna, barding, cabin, cannon, canvas top, collar, costume chest, crow's nest, diving bell, fishing nets, flying vehicle, full kitchen, garden, gnarled tree, medical bay, spotlight, sweater, television, tow cable, upper deck, underbelly hammock, workbench

## CIRCLE 2 FLAWS

creaky boards, bug infestation, messy, foul odor, cramped, slippery, moldy, loose-fitting, splinters, haunted aura, barnacles, no railings, stained, noisy, dark history, rusted, poor visibility, hideous color, highly flammable

## DRAW A MAP

Sketch the layout of your saddle in the blank space to the right. Consider these questions as a group:

- ◆ Where do we eat?
- ◆ Where do we store our things?
- ◆ Where do we sleep?

At the beginning of **recurring sessions**, have each player draw another detail onto the map, reflecting new changes.

## ASK ONE TO THE LEFT

Ask one question to the player on your left. Repeat this for each player present.

- ◆ Where is your favorite spot to be?
- ◆ Where won't you go?
- ◆ Where do we cuddle?
- ◆ What did you break last week?
- ◆ What did you drop overboard?
- ◆ What private object of mine did you stumble across? Where?
- ◆ Where do you sit or stand to feel the wind on your face?
- ◆ Why do you sleep away from the rest of us?
- ◆ Why aren't you allowed in the kitchen anymore?
- ◆ Where do you keep your hidden stash of belongings?

## FISH HELD

**Gain fish** by taking the *Go Fish* travel task. **Feed a fish** to the Kirin to recover one of its marked Conditions.
